

Who is InsideTrack?

InsideTrack is an Educational Advising organization focused on student success. Whether that is helping to determine career path, picking out classes, or navigating Financial Aid applications, their mission is about helping students get where they want to be in life. ISTS and InsideTrack have been Partners since 2020.

BSCI + InsideTrack + ISTS

Boston Scientific offers an Educational Assistance Program, rather than a Tuition Reimbursement program. This means that in addition to helping employees pay for school, they also are committed to helping them in other areas. Now not only can employees apply for their courses to be reimbursed, they can also get guidance on which courses and programs to take. Employees have the ability to sit down with an Academic/Career Coach to review career goals, how their education can help them reach those goals, and the appropriate plan and steps to make it happen.

Who is eligible to apply?

Any employee who is eligible to participate in the Educational Assistance program is also eligible for coaching. As a reminder, applicants must:

- Be a regular, full-time employee or part-time employee working at least 20 hours weekly
- Be located in the U.S. or on expatriate assignment, and paid through U.S. payroll (U.S. Policy)
- Be located in Puerto Rico or on expatriate assignment, and paid through PR payroll (PR Policy)
- Be in good standing and not on a Corrective Action Program.

Applicants do not have to participate in tuition reimbursement to qualify for coaching. An applicant whose Field of Study was not approved is still eligible to apply for coaching, and in many cases we encourage them to do so.

How does it work?

On <https://BSCI.applyISTS.net>, there is a button where applicants can express interest in receiving coaching.

After they click this button, applicants are first taken to an initiation form where we can make sure that they are an eligible employee. From there, they go to an intake form where we collect some additional information about their needs.

Upon completion of the intake form, someone from InsideTrack will contact them within 5 business days to set up their first coaching session. Each applicant will receive up to 90 days of coaching, or until they decide that their needs are met. Its just that easy!

Coaching can happen over the phone, over a video call, and arrangements can be made via text message. InsideTrack coaches are familiar with the BSCI Educational Assistance Policy, and they are prepared to help students with questions about eligibility and applying for tuition reimbursement.
